

CONSTRUCTION DEFENSE

Multilayered solutions with advanced perimeter defenses.

At OnView Integrated Solutions, we're transforming construction security. Our advanced multi-layered crime deterrent technology safeguards your projects and products, creating a canopy shield against theft. With our extensive law enforcement expertise in criminal trends, we're setting new safety standards in the construction industry.

What makes us unique is our customized approach to eliminate nuisance activity before crime occurs. We collaborate with each customer to design an active deterrent solution that perfectly fits their needs, adapting throughout every project phase.

Our ultimate goal: safeguarding your project from every angle.

Protect your next project from:

- Container Break-ins
- Theft of Power Tools & Heavy Equipment
- Portable and Trailer Burglaries
- Illegal Dumping
- Copper Theft
- Trespassing

Protect your project with Crime Deterrent Solutions

Live Camera Monitoring

We provide a virtual canopy of protection by utilizing advanced surveillance technology and highly skilled monitoring agents 24/7.

Intelligent Security Cameras

We integrated audio & visual deterrence with intelligent cameras to deter criminal activity.

Artificial Intelligent Deterrence

For immediate intervention, we use latest artificial intelligent deterrent software, to detect and analyze criminal activity in real-time.

Immediate Response

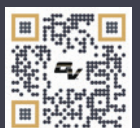

Our agents will dispatch and deploy private security and law enforcement to in-progress crimes. We have the ability to deter criminal activity remotely, 95% of the time.

Perimeter Defense

At OnView, we target criminal activities proactively by addressing them at the perimeter. Our extensive training equips us to identify and mitigate potential problems before they escalate into criminal incidents. With "Prevent the Intent" as our motto, we specialize in safeguarding your property from external threats, ensuring the protection of the interior.

Active Deterrent Security Trailers

Mobile Portable Solar-Powered Security Surveillance Trailer, the ultimate solution for flexible, robust, and eco-friendly security monitoring. This state-of-the-art trailer is engineered to provide comprehensive surveillance capabilities in any location, without the need for external power sources. By harnessing the power of the sun, this innovative trailer offers uninterrupted security monitoring, making it ideal for remote sites, construction sites, and temporary security needs.

Active Deterrent Surveillance Backpack

Portable Active Deterrent Unit Seamless and rapid deployment options for Active Deterrence can easily be deployed on projects where security trailers do not fit. These units can be utilized for internal and external protection. Our "Backpack" design helps customers get immediate protection in difficult locations. All Active Deterrent Units are equipped with loud talk-down speakers, high intensity LED strobe lights, and wireless motion video detectors for blind spots.
